

BOMBSHELLS' MANIFESTO

We anonymously promote fiber craft as adventure.

We aim to soften the edges of an otherwise cruel, harsh environment.

We juxtapose vandalism with the non-threatening nature of fibers.

We aim to readdress the nature of graffiti with a nonpermanent, nondestructive, cozy medium.

If you don't like it, just unpick it.

We are a non-discriminating collective.

Cincinnati today, the world tomorrow!

We are actively contributing to a more positive type of global warming.
